## **Kwantlen Student Association Club Social Media Policy & Procedures**

### **1.0 Preamble**

Social media has become an important tool for communication and is used widely by clubs to promote events, organize, contact members, and reach out to the community. The KSA recognises and embraces the many benefits and uses of social media, but also recognises that those making posts must be aware of the legal, ethical, and reputational consequences of posts made online, which have the potential to be both public and permanent.

As use of social media is increasing, the need for clearly defined social media standards is also growing. In the interest of creating a safe, supportive, and inclusive environment at the university, the KSA has created this policy and procedure to guide the use of social media by clubs and KSA student groups on campus and ensure that all members of the university community are free from discrimination and harassment. Nothing in this policy and procedure is intended to limit freedom of speech, that freedom being expressed within the law.

### **2.0 Scope**

This Policy and Procedure will apply to:

- All official KSA clubs,
- KSA Student groups,
- Social media accounts affiliated with KSA clubs and student groups,
- All posts made on social media platforms at any time by the groups listed above, and
- Private messages from KSA club accounts that are reported to the KSA by a University community member.

Does not apply to:

- Posts made on personal social media accounts, or
- Social media accounts that are not affiliated with KSA clubs or student groups.
